DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to method of implanting first and second stent-grafts within first and second vessel regions, classified in class 623, subclass 1.11.
 - II. Claims 21-27, drawn to a delivery system for a bifurcated stent, classified in class 623, subclass 1.11.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the delivery system as claimed can be used to practice another and materially different process.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Mr. Neil D. Gershon on 12/9/2003 a provisional election was made with traverse to prosecute the invention of group I, claims 1-20. Affirmation of this election must be made by applicant in replying to this Office

Art Unit: 3731

action. Claims 21-27 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 1-9, 12-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Shmulewitz (5,961,548). Shmulewitz discloses a method for treating bifurcated body lumens such as the bifurcation between common carotid artery (col. 3, lines 9-17), the method including all the step as claimed (figs. 6A-6C and col. 4, line 59 to col. 5, line 47).

Art Unit: 3731

8. Claims 10-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Colombo et al. (6,520,988). Colombo et al. disclose a method for implanting a bifurcation stent into a bifurcation regions including all the step as claimed (figure 7, col. 20, lines 18-44).

9. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Douglas (6,156,063). Douglas discloses a method for delivering bifurcated stent apparatus including all the steps as claimed (figs. 7A-7G, col. 10, line 45 to col. 11, line 61).

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Jackie) Tan-Uyen T. Ho whose telephone number is (703) 306-3421.
